ZURFIZ ULTRAMATT WHITE BI-FOLD DOOR

# Bi-Fold Doors

## Space Saving

Folding doors are a very popular choice for wardrobe doors. They won't swing outward as far as a traditional door, which means that you'll be able to open them and look inside without stepping backward away from the door, and without clearing a space in front of the wardrobe.

If your wardrobe is slightly larger, then the same space-saving virtues still apply; if you lack sufficient room around the edge of your bed, then folding doors will offer an elegant means of maximising your living space.

## Keeping it Simple

One of the most obvious benefits of sliding doors is their space saving properties. Where hinged doors require space in which to swing open, sliding doors operate sideways. This makes them ideal for use in smaller rooms where space is at a premium, as well as for cupboards and wardrobes.

BELLA MATT PISTACHIO GREEN / STYLE: PARIS

# Hinged Doors

## Total Access

Access is perhaps the most important advantage of hinged wardrobe doors. Sliding doors block one half of the available access to the wardrobe in most cases, while hinged doors can be swung open to reveal the entire wardrobe. This allows for easier storage of larger, bulkier items, and it increases available light in the wardrobe without having to install an electric light inside.

More access allows for easier organization of the wardrobe space as well, and if drawers are present inside the wardrobe space, they will be easier to open fully to access the contents therein.
